ORDINANCE TO ESTABLISH REQUIREMENTS FOR NEW AND REPLACEMENT DRIVEWAYS AND CULVERTS

Town of Cary, Wood County, State of Wisconsin

Ordinance 001-2026 will supersede Resolution 001-2017

The Town Board of Town of Cary, Wood County, Wisconsin has specific authority under s.66.0103, Wis. Stats., to adopt this ordinance.

The Town Board of Town of Cary, by this ordinance, adopted on proper notice with a quorum and roll call vote by a majority of the Town Board present and voting, provides the authority for the town to establish new and replacement driveway culvert regulations.

Any person requesting permission to install a culvert and/or driveway must own the property being accessed or be a contractor hired by the person owning the property.

Person requesting culvert installation shall mark the site where culvert is to be installed. Culverts shall be adequate in size and placement for surface water drainage along the roadway. Before installation of said culvert, a board member of the Town of Cary, Wood County shall inspect the site.

The specifications for new and replacement driveway culverts shall be a minimum of 15 inches for double walled culverts. The culvert length shall be a minimum of 30 feet and not more than 40 feet.

Culverts shall be commercially available concrete, galvanized, aluminum, or corrugated polyethylene (plastic) outer wall with a smooth inner liner (or other approved material where conditions permit).

The surface of the driveway connecting with the roadway shall slope down and away from the road a sufficient amount and distance to preclude ordinary surface water drainage from the driveway area flowing onto the roadbed. Driveway width at the roadway entrance shall be a minimum of 16 feet. (For the driveway itself, emergency government recommends 12 feet width and 12 feet vertical clearance to the residence.)

This ordinance is effective on the _____ of _____, 2026. The town clerk shall properly post this ordinance as required under s.60.80, Wis. Stats,

Adopted this _____ day of _____, 2026
